

GCCS Good Neighbour Policy

July 2009

The purpose of the Good Neighbour Policy is to ensure that our centre is an inclusive, welcoming place. We encourage activities that build and enhance the sense of community among residents and visitors to our island. To that end, we have adopted the following policy which forms part of our rental agreements and applies to all users of our facilities.

Consideration for our Environment

Leave is as you found it, or better. Take all that you bring with you when you leave. Use the ashtrays, outhouse and toilets. Do not use our grounds or those of our neighbours for any kind of refuse.

Consideration for our Neighbours

Our neighbours throughout the island have the right to the quiet enjoyment of their property. Be mindful of that when you use, access or leave our facilities.

Duration of Events

- a) **Indoor events** end at midnight when they involve people coming and going from the centre.
- b) **Outdoor events** end at 10 p.m. Sound amplification may be used only at outdoor events that are open to all without access restrictions and that are sponsored by island-based non-profit organizations.

Implementation of the Policy

In the event of a breach of the policy, the following apply:

- a) Any two directors together are authorized to immediately terminate use of the centre.
- b) The damage deposit is forfeited.
- c) Future rentals or use will be by application to the Board.
